Attn: To whom it may concern,

TESTIMONIAL

Total Solution Holdings Pte Ltd (Total Solution) partnered with the KACCC to provide their video expertise for the annual Chinese New Year celebrations in Chinatown from 19-January till 17-February 2008.

Total Solution set up a Barco LED wall in front of People Park's Complex to provide high resolution visuals for the Chinese New Year festivities. In addition, Total Solution supplied their Pandoras Box media server to provide 3D visual graphics during the street light up, Chinese New Year eve countdown and the Yuan Xiao Jie celebrations.

Other than the celebrations, the LED wall was also used to display past images of Chinatown and promotional adverts from the Singapore Tourism Board. Due to the high quality of LED screens supplied by Total Solution, it was very well received and made a difference in our celebrations.

Throughout the period, Total Solution displayed professionalism and high levels of service. We were also impressed by their expertise and valuable contributions to make the celebrations a huge success. We certainly look forward to partnering Total Solution again for future similar events.

Yours faithfully
