TESTIMONIAL

Total Solution Holdings Pte Ltd (Total Solution) was contracted by Rock Productions Pte Ltd in August 2007 to supply, install, test and commission a fixed installed Barco LED screen display for our weekly services at Rock Auditorium.

During the evaluation of our purchasing decision, Total Solution provided excellent service and technical insights. We were impressed by their capabilities, proven past business track record and the quality of their LED solutions offered. They have also displayed strong after sales service with their regular hardware and software updates to our products.

We were confident of their strong technical servicing know how and trouble shooting capabilities as Total Solution has a team of experienced and well qualified technicians in their Service Centre. This gave us an added assurance in their ability to render timely and extended post warranty servicing to prolong product lifespan. We also contracted Total Solution to provide annual periodical servicing of our LED wall.

Other than the installation of the LED wall at our premises, Total Solution also provided additional LED wall setup support for our major festive services at Singapore Indoor Stadium. They had also on several occasions supplied their Pandoras Box media server to provide 3D visual graphics display during our services. This was well received and made a difference to our services.

Throughout this period, Total Solution displayed excellent professionalism and high levels of customer service. We will certainly look forward to partnering Total Solution again for our future product purchases.

Yours faithfully,
For Rock Productions Pte Ltd

Jack Ho
General Manager
