To whom it may concern,

TESTIMONIAL

Total Solution Holdings Pte Ltd (Total Solution) was contracted by Sentosa Development Corporation in April 2011 to supply, install, test and commission a fixed installed Chromalux P6 LED Wall at Sentosa Express Station Concourse in Vivo City.

During the evaluation of our purchasing decision, we were impressed by their proven past business track record, capabilities and the quality of their LED solutions offered. We were confident of their strong technical servicing know how and troubleshooting capabilities as Total Solution has a team of experienced and well qualified technicians in their Service Centre. This gave us an added assurance in their ability to render timely and extended post warranty servicing to prolong product lifespan.

Total Solution was meticulous and very detailed in their install preparation work. As we were working on a very tight delivery dateline, it helped that they displayed a strong sense of professionalism, enthusiasm and pride in their work process which ensured everyone worked within the tight installation dateline.

Throughout this period, Total Solution displayed excellent professionalism and high levels of customer service. We will certainly look forward to partnering Total Solution again for our future product purchases.

Yours faithfully,

Nicholas Tan
