

**Ayrton's first compact multi-function luminaire**  
with an IP65 water-resistant rating

***A drop of water can be as magical as it is dazzling in the hands of true artist***

**Perseo** is the first compact multi-function luminaire with an IP65 enclosure rating developed by Ayrton for intensive outdoor use. Equipped with a new 500 W ultra-compact monochromatic LED source calibrated at 8000 K, it can deliver metallic white light with an output of 27,000 lumens. Ayrton has specifically developed the optics in Perseo to achieve an optimal resolution-to-performance-to-efficiency ratio. They allow perfect image reproduction and significant improvement from distortion caused by the shutter blades with wide zoom.

The optics produce a highly uniform flat beam with no hot spot, achieving a perfect colour mix regardless of the colour combination selected. Fitted with a 148 mm frontal lens, this proprietary system has 13 lenses, delivering an 8:1 zoom ratio and a zoom range of 7° to 56°. Ayrton has endowed this next generation luminaire with a new minimalist design in lighter weight die-cast aluminium, incorporating full weather-proofing features that ensure easy accessibility.

Perseo is the ultimate in versatility, designed for multiple outdoor and indoor applications.
